

CA Records Manager Rapid Implementation

Accelerate the Management, Control and Discovery
of Corporate Content Across the Enterprise

Get going fast with CA Records Manager. In 60 to 90 days, CA Services professionals with deep and broad knowledge of the CA Records Manager solution leverage a proven deployment methodology that eases implementation time, reduces risk and speeds adoption of CA Records Manager. Deliver fast time to value and ease compliance and discovery response with the CA Records Manager Rapid Implementation.

Supporting Your Business

The CA Records Manager Rapid Implementation is your on ramp to a quick CA Records Manager solution. Experienced CA Services professionals design a best practices-based architecture that installs, configures, integrates and deploys the CA Records Manager out-of-the-box components. This fixed price pre-defined service speeds the time it takes for you to realize value and provides comprehensive lifecycle management of corporate knowledge assets.

As part of this service, you choose three integrations for your CA Records Manager solution from a list of offered integrations. Integrations include specific document management, email and email archiving, imaging and other select products.

Delivering Business Value

The CA Records Manager Rapid Implementation:

- Leverages experienced CA experts and partners for a quality solution design and deployment
- Delivers a DoD 5015.2-STD V3 Chapter 2, 3 and 4 certified solution
- Installs a powerful Crystal Reports engine for custom reporting capabilities
- Speeds time to solution value and reduces deployment risks
- Transfers knowledge to staff to speed adoption and business value

What You Get

The CA Records Manager Rapid Implementation provides CA Services professionals who:

- Develop a project plan, project schedule and specifications that detail the solution requirements, solution design, test plan, deployment phasing and implementation plan
- Install, configure and integrate CA Records Manager in a test environment
- Perform solution testing with quality assurance reviews
- Complete configuration and backup documentation
- Train and transfer knowledge to administrative staff
- Deploy the solution in a production environment and assist with production rollout

Why CA Services?

By leveraging our proven nine-stage deployment methodology, best practices, and expertise, CA Services can help you implement CA products in a way that speeds time-to-value and lowers project risk. When it comes to deploying CA solutions, no other organization can provide the depth of expertise, breadth of services, and partner network required to help you achieve the efficient IT management that drives business results.
