

CA Gen Release 8.x: Design and Construction for Blockmode 200

PRODUCT RELEASE

CA Gen Version 8 or greater

COURSE TYPE, LENGTH & CODE

- WBT
- 3.5 hours
- 06GEN20300

PREREQUISITES

- 06GEN10160
CA Gen: Foundations 100
WBT (15 Minutes)
- 06GEN20290
CA Gen: Analysis 200
WBT (1.5 Hours)

WHO SHOULD ATTEND

- New Users who have taken the prerequisites

Course Overview

CA Gen is an integrated application development model-based tool that enables clients to:

- 1) develop mission-critical enterprise applications quickly, reliably, and with quality.
- 2) model and rapidly deliver applications to meet their business needs.

In this course, you will:

Design the database, generate and install the database, create a menu procedure, create a list procedure, create a maintenance procedure, design the screen, and construct and test the application.

This course uses step-by-step interactive demonstrations to show you how to perform the above tasks.

What You Will Learn

At the end of this course you will be able to:

- Transform a data model in CA Gen
- Generate and install a database
- Design procedures
- Design the screen
- Construct and test the application

For Managers

In this course, your employees will:

Design the database, generate and install the database, create a menu procedure, create a list procedure, create a maintenance procedure, design the screen, and construct and test the application.

This course uses step-by-step interactive demonstrations to show your employee how to perform the above tasks.
