

CA Gen Release 8.5: Design and Construction for GUI and Web 200

Course Overview

CA Gen is an integrated application development model-based tool that enables clients to: 1) develop mission-critical enterprise applications quickly, reliably, and with quality, and 2) model and rapidly deliver applications to meet their business needs.

PRODUCT RELEASE

CA Gen Release 8.5: Design and Construction for GUI and Web 200

In this course, you will:

Design the database, generate the database, design a menu procedure, construct and test a menu procedure, design and construct a list procedure, detail processes, design and construct a maintenance procedure, and enhance the UI for the web.

This course uses step-by-step interactive demonstrations to show you how to perform the above tasks.

COURSE TYPE, LENGTH & CODE

- WBT
- 1.5 hours
- 06GEN20310

What You Will Learn

At the end of this course you will be able to:

- Transform a Data Model in CA Gen
- Generate and Install a Database
- Design Procedures
- Detail Processes
- Construct and Test Procedures

PREREQUISITES

- 06GEN10160
CA Gen: Foundations 100
WBT (15 Minutes)
- 06GEN20290
CA Gen: Analysis 200
WBT (1.5 Hours)

WHO SHOULD ATTEND

- New Users who have taken the prerequisites

For Managers

In this course, your employees will:

Design the database, generate the database, design a menu procedure, construct and test a menu procedure, design and construct a list procedure, detail processes, design and construct a maintenance procedure, and enhance the UI for the web.

This course uses step-by-step interactive demonstrations to show your employee how to perform the above tasks.
