

Optimizing CA Database Backup and Recovery for DB2 for z/OS 100

PRODUCT RELEASE

DB2 Tools Backup and Recovery

COURSE DURATION & COURSE CODE

- Web-Based Training
- One (1) Hour
- Course Code: 06DBT10080

PREREQUISITES

- None

WHO SHOULD ATTEND

- Database Administrators (DBA)
- Chief Information Officer (CIO)
- Director of Operations
- Data Center Manager
- Director of Compliance
- System Administrators
- System Programmers/Developers

Course Overview

CA Backup and Recovery is a set of tools that address the three key areas of a backup and recovery strategy: creating secure backups, establishing recovery procedures, and executing disaster recovery. CA Backup and Recovery tools also minimize downtime, ensure data integrity, and automate/coordinate sophisticated data recoveries.

This course is designed to help you understand the key features and benefits of the CA Backup and Recovery tools. In addition, the course will use simulations to demonstrate the capability of each tool.

What You Will Learn

- Identify the main features and benefits of each product in DB2 Tools for Backup and Recovery
- Recognize opportunities for using one of the Backup and Recovery products to improve efficiency and reduce costs
- Recognize opportunities for using multiple products to address a business problem

For Managers

CA Backup and Recovery can enable your System Administrators and Developers to simplify complex and time-consuming data backup and recovery processes -- right from planning and auditing database activity to daily backup routines to recovery of lost or corrupted data.

An understanding of the key features and benefit of the tools in CA Backup and Recovery will help your System Administrators and Developers to choose the right tools that meet their system and business requirements.

Course Agenda

Module 1 – About the DB2 Tools Backup and Recovery Suite	Module 2 – CA Fast Check for DB2 for z/OS
<ul style="list-style-type: none"> ▪ Identify the main functions of each product in DB2 Tools for Backup and Recovery. 	<ul style="list-style-type: none"> ▪ Explain the key features and benefits of CA Fast Check.
Module 3 – CA Quick Copy for DB2 for z/OS	Module 4 – CA Merge/Modify for DB2 for z/OS
<ul style="list-style-type: none"> ▪ Explain the key features and benefits of CA Quick Copy. 	<ul style="list-style-type: none"> ▪ Explain the key features and benefits of CA Merge/Modify.
Module 5 – CA Fast Recover for DB2 for z/OS	Module 6 – CA Recovery Analyzer for DB2 for z/OS
<ul style="list-style-type: none"> ▪ Explain the key features and benefits of CA Fast Recover. 	<ul style="list-style-type: none"> ▪ Explain the key features and benefits of CA Recovery Analyzer.
Module 7 – CA Log Analyzer for DB2 for z/OS	Module 8 – CA Log Compress for DB2 for z/OS
<ul style="list-style-type: none"> ▪ Explain the key features and benefits of CA Log Analyzer. 	<ul style="list-style-type: none"> ▪ Explain the key features and benefits of CA Log Compress.
Module 9 – Module Quiz and Summary	
<ul style="list-style-type: none"> ▪ Identify the main functions of each product in DB2 Tools for Backup and Recovery.
