

ID400: CA IDMS™/DB r18.x: Concepts & Facilities 200

PRODUCT RELEASE

CA IDMS r18.x

COURSE TYPE, DURATION & COURSE CODE

- Web-Based Training
- Four (4) Hours
- Course Code:
06IDM20140

WHO SHOULD ATTEND

- Application Developers
- Database Administrators
- System Programmers

Course Overview

This course will introduce you to the database concepts and capabilities of CA Integrated Database Management System (IDMS), CA IDMS. After mastering the vocabulary used in the CA IDMS environment, you will explore the tools available for data management and application development.

What You Will Learn

- Concepts of logical and physical database design in CA IDMS
- Basic principles of CA IDMS Operations and Recovery
- How the CA IDMS environment is documented, controlled, and secured
- Master the vocabulary of the CA IDMS environment
- The tools available for data management, query, and application development within the CA IDMS environment

For Managers

This course is designed to introduce your team to the database concepts and capabilities of CA Integrated Database Management System (IDMS), CA IDMS.

Implementing the knowledge gained in this course will help your team understand how CA IDMS can bring structure, meaning, and business value to data. It will better enable them to develop, maintain, and support CA IDMS applications within your organization.
