Mainframe System Programmer  
Mainframe Operators

## RECOMMENDED NEXT COURSES

CA-OPS/MVS r11 Event Management and Automation: Getting Started 200  
Course Code: 06MVS20013

## Course Overview

CA OPS/MVS Event Management and Automation automatically responds to system events, and can detect problems before users are affected.

In this course, you will be taught how to configure and use OPSLOG WebView with SSL Communications. You will also receive an overview of the technology that makes digital certificates work, followed by a hands-on lab in which we will create a certificate, install it in an OPSLOG WebView client, and see it work.

## You Will Learn How To

- Configure and Use OPSLOG WebView with SSL Communications
- Create digital certificates
- Install certificates in an OPSLOG WebView client
