

CA SERVICES:
Service Description

CA Clarity™ Advanced Financial Management Accelerator

provide detailed insight into financial status and
risks associated with projects

we can

How do you add vision into project performance and financial planning data? How do you forecast costs and monitor expenditures? Do you often find it difficult to track performance to budget and develop a strong understanding of how projects are executing by phase? The CA Clarity™ Advanced Financial Management Accelerator can help you get a handle on the financial status of projects and appreciate the risks you may be facing while providing a robust set of reporting and dashboard capabilities.

Supporting your business

The CA Clarity Advanced Financial Management Accelerator provides resource managers, project managers and executives with insight into the financial status and risk associated with projects and detailed comparisons of performance to budgets and forecasts. By using a comprehensive set of financial tools, CA Clarity Advanced Financial Management Accelerator provides you with a broad set of financial tools that enable superior project financial management.

Delivering business value

The CA Clarity Advanced Financial Management Accelerator:

- Eases comparisons of project performance to budgets and forecasts
- Enables improved project financial management
- Presents a wide variety of financial reports and dashboards in different formats

What you get

The CA Clarity Advanced Financial Management Accelerator includes the pre-configured reports and portlets listed below and the services to install, set up, test and verify this Accelerator. You also receive mentoring on how to best utilize the reports and portlets, as well as the supporting user documentation and code.

- CA Clarity Fiscal Focus Actionable Dashboard Add-On Services Component
- Investment Financials Portlets
- Investment Process Portlets
- Month and Year-to-Date Financial Variance Report
- Monthly Fiscal Finance Report
- Project Phase and Resource Actuals Report
- Quarterly Financial Variance Report.

Why CA Services?

By leveraging our proven nine-stage deployment methodology, best practices, and expertise, CA Services can help you implement CA Technologies products in a way that speeds time-to-value and lowers project risk. When it comes to deploying CA Technologies solutions, no other organization can provide the depth of expertise, breadth of services, and partner network required to help you achieve the efficient IT management that drives business results.

CA Services is part of **Go Live with CA Technologies**, which brings together services, education, support, partners, and communities in a seamless process to help customers get started quickly, successfully deploy their technology, and continue to expand the value well after their initial deployment.
