

**PRODUCT SHEET:**

CA Clarity™ Integration Accelerator

# CA Clarity™ Integration Accelerator

Take advantage of an integrated view across multiple IT systems for improved project success

How can you provide a comprehensive vision into disparate project, resource, finance and support systems within your organization? Enable a 360 degree view and the financial alignment necessary to more effectively manage projects, budgets and resources for immediate and measurable results.

---

## Supporting your business

The CA Clarity Integration Accelerator gives resource managers, project managers and executives the ability to automate the sharing of data between other business systems and CA Clarity, providing up-to-date cross system data for better decision making. This set of powerful adapters integrates HR, accounting, ERP, time entry and other processes for improved project alignment and greater synchronization between projects and finance.

---

## Delivering business value

The CA Clarity Integration Adapters Accelerator:

- Integrates project, resource, finance and support systems with the CA Clarity Project Portfolio Management (PPM) solution
- Provides data from disparate systems to enhance decision making

---

## What you get

The CA Clarity Integration Accelerator includes the preconfigured integration adapters listed below and the services required to install, set up, test and verify the Accelerator. You also receive up to 8 hours of installation delivery support for each adapter and mentoring on how to best utilize each adapter. Also included is the supporting user documentation, administration guide and installation guide.
