

Identify, Plan and Prioritize Risk for Effective Portfolio Business Alignment

HOW CAN YOU PROVIDE GREATER SYNCRONIZATION BETWEEN PROJECTS AND BUSINESS INITIATIVES? HOW CAN YOU SPOT OPPORTUNITIES FOR REALLOCATION OR REUSE OF RESOURCES QUICKLY AND EASILY WHILE DELIVERING REAL BUSINESS VALUE TO PROJECT MANAGEMENT AND EXECUTIVE LEVEL PERSONNEL? CA CLARITY™ PORTFOLIO ANALYSIS ACCELERATOR CAN HELP YOU MAINTAIN CONTROL OF COMPLEX PROJECTS AND GAIN A CLEAR VISION INTO PRIORITIES AND PLANNING.

Service That Supports Your Business

The CA Clarity Portfolio Analysis Accelerator is a set of utilities, reports, pages, charts, graphs and portlets that provides insight on portfolio status and milestones. Having this insight helps you to identify risks and improve alignment of the project portfolio to your business through greater program planning and control capabilities. Data is presented in a clear and concise format for enhanced usability and greater adoption.

Benefits That Deliver Value

The CA Clarity Portfolio Analysis Accelerator:

- Helps you align projects and resource allocations with business objectives
- Helps you identify portfolio risks
- Helps you improve decision making and enables better monitoring of project progress and more predictable outcomes

What You Get

The CA Clarity Portfolio Analysis Accelerator includes the preconfigured components, portlets and dashboards listed in Table A and the services to install, set up, test and verify the Accelerator. You also receive mentoring on how to best utilize the reports, portlets and utilities and the supporting user documentation and code.

TABLE A

CA CLARITY PORTFOLIO ANALYSIS ACCELERATOR COMPONENT, PORTLET AND DASHBOARD DESCRIPTIONS

Program Dashboard Layout	Four portlets that comprise a program dashboard layout, including an issues by priority pie graph with drill-down to the issues list, late tasks and milestones report, open milestones reports and team capacity bar chart
Program Hours Comparison Portlet	Bar chart showing actuals versus planned versus baselines aggregated by programs, including drill-down to program or project details
All Investment Dashboard	Page layout for the Portfolio object that displays portfolio comparison (side-by-side), capacity resources, alignment and performance
Application Dashboard	Page layout for the Portfolio object that displays application information including a scorecard, quadrant, capacity and alignment

Why CA Services?

By leveraging our proven 9-stage methodology, best practices, and expertise, CA Services can help you implement CA products in a way that shortens time-to-value and lowers project risk. When it comes to deploying CA solutions, no other organization can provide the depth of expertise, breadth of services, and partner network required to help you achieve the efficient IT management that drives business results.
