

RAPID IMPLEMENTATION:
CA Oblicore Guarantee

CA Oblicore Guarantee™

Rapid Implementation

Automate service level management and achieve fast time to solution value delivered by the experts with confidence and quality

agility
made possible™

The CA Oblicore Guarantee™ Rapid Implementation provides a foundational deployment of the solution to help your organization define, capture, monitor, automate and act on information critical to service delivery and maintenance of performance targets for enterprise and service providers and service customers.

Supporting your business

Traditional management of contractual service level agreements is prone to error, labor intensive and costly. By speeding the implementation of CA Oblicore Guarantee, you can provide faster visibility into service-level agreements (SLAs) and proactively manage and measure service delivery across business and technology infrastructures.

By letting the CA Services experts help you implement your software, you will help your business improve its enterprise and service performance, achieve quicker return on its investment and be able to redeploy resources to more important tasks. With over 30 years of experience and thousands of successful projects completed, feel confident your investment in CA Oblicore Guarantee will deliver the results your organization needs with value and precision.

Delivering business value

The CA Oblicore Guarantee Rapid Implementation delivers:

- **Reduced implementation risk:** With CA Services implementation of CA Oblicore Guarantee, your organization won't risk the loss of workforce productivity to implement or face improper software installation.
- **Quick return on investment:** CA Services is able to reduce the time required for initial deployment, focusing on configuring your solution to meet the changing needs of your business.
- **Achieve faster-time-to-value with defined outcomes:** With CA Services, your enterprise and service providers will improve productivity by training key employees on proper usage.

What you get

The CA Oblicore Guarantee Rapid Implementation provides:

- Pre-implementation planning
- Reports, including business logic definitions to measure service level commitments, CA Oblicore Guarantee data adapters, sample reports and a sample dashboard designed to display CA Oblicore Guarantee dashboard features
- Ability to standardize contracts, automate data collection and reporting
- Knowledge transfer with coaching and mentoring to ensure that key internal members understand fundamental features
- Remote support during customer acceptance training
