

Benefit from an Intelligent Transition Plan and Strategic Design

THERE IS NO REPLACEMENT FOR PROFESSIONAL PLANNING AND EXPERT DESIGN SERVICES WHEN IT COMES TO MIGRATION, ESPECIALLY WHEN THE UPGRADE PROJECT CAN DISRUPT YOUR ORGANIZATION'S ASSET MANAGEMENT OPERATIONS AND THREATEN THE HEALTH OF YOUR BUSINESS. BEFORE EMBARKING ON A MIGRATION PROJECT WITH THIS DEGREE OF COMPLEXITY, GETTING A WELL-DESIGNED PLAN FROM MIGRATION-EXPERIENCED EXPERTS WHO ALSO HAVE THE PRODUCT, ASSET MANAGEMENT AND INDUSTRY KNOWLEDGE TO HELP YOU LEVERAGE NEW FEATURES AND FUNCTIONS WILL REDUCE YOUR RISK AND HELP YOU STRATEGICALLY MATURE YOUR ASSET MANAGEMENT PROCESSES.

Service That Supports Your Business

The CA Unicenter® Asset Portfolio Management Migration Assessment accelerates your transition and planning when migrating from Unicenter® Argis r8 to CA Unicenter® Asset Portfolio Management (APM) r11. This service looks at what your organization requires - in terms of people, processes and technology - to perform asset management using CA Unicenter APM as effectively and cost efficiently as possible.

The assessment delivers architectural and design insights into how to apply CA Unicenter APM features and functions to improve maturity in your management environment. Your current Unicenter Argis business implementation and current state processes are analyzed to identify migration risks, the Unicenter Argis technical environment is scrutinized to account for customizations and integrations and recommendations are made for migration strategies, architectural design and asset management process improvements.

Benefits That Deliver Value

The CA Unicenter APM Migration Assessment provides the following benefits:

- Leverages CA IT Asset Management (ITAM) experts who have migration and product deployment experience with both Unicenter Argis and CA Unicenter APM
- Reduces the risk of a migration failure through up-front planning and design
- Identifies the business impacts and operations risks to ITAM processes
- Delivers a solid and achievable transition plan that details solution architecture recommendations, implementation roadmap and measurable migration success metrics
- Correlates CA Unicenter APM features and functions to your business goals and IT needs

What You Get

The CA Unicenter APM Migration Assessment occurs over a three-to-eight week period and includes:

- Workshops and interviews with business unit and IT staff to review current business processes and identify
 - Data sources, such as item data, asset data, contract data, individual/cost center data, company data, and location data
 - Existing interface programs, such as triggers, stored procedures and SQL queries
- A Migration Assessment Report that documents:
 - Business requirements and goals for the migration
 - CA Unicenter APM components and integration specifications
 - Detailed descriptions of the changes required to existing interfaces for migration
 - Functional testing for the migrated environment
 - Physical architecture requirements
 - Impact of the migration on people, process and technology
 - Phasing and roadmap recommendations
- Presentation of the significant assessment findings, recommendations, migration roadmap and an estimate of the quantifiable benefits and the costs associated with the migration

CA Vision

Enterprise IT Management (EITM) is CA's vision to unify and simplify complex IT environments for greater business results. We do this securely through the intelligent integration and dynamic management of people, processes and technology across the enterprise, including storage, systems, networks, applications, databases and security. Customers can better manage risk, manage costs, improve service and ensure IT resources are consistently used to drive the business.

Why CA Services?

CA Services specializes in designing, implementing and optimizing solutions to help you achieve the efficient IT performance that drives superior business results. We use a five-step, time-to-value approach that delivers results quickly and incrementally.

- Best practice leadership
- Rapid time-to-value
- Multi-phased deployments
- Stabilization
- On-boarding education
