

SOLUTION BRIEF

CA Mainframe Suite for IBM Rational Developer for System z Unit Test

do you want to run
your mainframe
software from
CA Technologies
on IBM Rational
Developer for
System z Unit Test?

agility
made possible™

Now you can!

CA Technologies is offering our mainframe customers the ability to purchase a seat license for the mainframe software they already own, and run it in IBM's RDz UT environment.

Challenge

CA Technologies customers want to capitalize on the benefits of the IBM Rational Developer for System z Unit Test (IBM RDz UT) environment by having the flexibility to select and extend the use of their existing mainframe software.

Opportunity

CA Technologies is offering our mainframe customers the ability to purchase a seat license for select the mainframe software they already own, and run it in IBM's RDz UT environment.

CA Mainframe Suite for IBM Rational Developer for System z Unit Test (CA Mainframe Suite for RDz UT) is a license right for approved products that customers may find useful in this test-only environment. The offering applies to a range of products from development, test, and change management products, to security products, databases and supporting database products, and various systems software products that can be tested, explored or developed in this environment. This offering is limited to development and testing of software and applications that run on IBM z/OS.

Benefits

The IBM Rational RDz UT feature provides systems programmers and application developers access to a segregated z/OS environment for installing and testing z/OS software and for building and testing z/OS applications. This creates an ideal environment for utilizing and exploiting suitable software products.

CA Mainframe Suite for IBM RDz UT provides the means to utilize separately purchased software from CA Technologies on the IBM RDz UT and in doing so helps to:

- Lower costs
 - Free up mainframe development MIPS for production capacity
 - Eliminate differentials between distributed/mainframe development
- Minimize risk
 - Experiment and explore software product options and configurations with minimal to no impact to business applications and end users
 - Build and test new applications with minimal risk to shared mainframe environments
- Increase productivity
 - Provides a completely segregated z/OS test environment to a wider range of mainframe developers and testers minimizing risk and system contention thereby providing better response time
 - Integrate easily with other Rational and IBM tools for additional productivity and cost savings

Applicable software from CA Technologies

- CA 1™ Tape Management, CA TLMS® Tape Management
- CA ACF2™, CA ACF2™ Option for DB2
- CA Aion® Business Rules Expert
- CA Auditor for z/OS
- CA Bundl®
- CA Calendar Routines
- CA Cleanup for ACF2™
- CA Compliance Manager for z/OS
- CA CREWS™ Catalog Recovery
- CA Database Management Solutions for DB2 for z/OS
- CA Database Management for IMS for z/OS
- CA Datacom®
- CA Deliver™
- CA Disk™ Backup and Restore
- CA Dispatch™
- CA Easytrieve®
- CA Endeavor® Software Change Manager
- CA FAVER™ VSAM Data Protection
- CA File Master™ Plus, CA File Master™ Plus IMS
- CA Gen
- CA Gener/OL™
- CA IDMS™
- CA InterTest™ for CICS, CA InterTest™ Batch
- CA JCLCheck™ Workload Automation
- CA JobTrac™ Job Management
- CA Librarian®
- CA Mainframe Application Tuner
- CA Mainframe Software Manager™
- CA NetMaster® File Transfer Management, CA NetMaster® Network Automation, CA NetMaster® Network Management for SNA, CA NetMaster® Network Management for TCP IP
- CA Optimizer®/II
- CA Panvalet®
- CA Roscoe®
- CA Scheduler® Job Management
- CA Spool™
- CA SymDump® Batch, CA SymDump® for CICS
- CA SYSVIEW® Performance Management for CA Application Performance Management
- CA Telon®
- CA Top Secret®, CA Top Secret® Option for DB2
- CA TPX™ Session Management for z/OS
- CA UFO™
- CA View®
- CA Workload Automation CA 7® Edition, CA Workload Automation ESP Edition, CA Workload Automation ESP Edition Restart Option, CA Workload Automation Restart Option for z/OS Schedulers
- CA XCOM™ Data Transport®

Terms and conditions

CA Mainframe Suite for IBM RDz UT license rights authorize you to use CA Software for which you are separately licensed only in the IBM RDz UT environment for non-production purposes. During the term of this license, you must also be licensed to use the IBM RDz UT environment. Use of the CA Software in any other environment or in the RDz UT environment for production purposes is expressly prohibited. This restriction does not change your existing license rights to use the CA Software in a production environment. During the term of this license, if you license additional CA Software, these license rights apply to such subsequently licensed CA Software.

The license rights are provided on a “per Seat” basis. “Seat” means a single person or identity whose access and use rights can be authenticated, authorized, or administered, or who has the ability to view content aggregated or managed by the CA Software. In general, a Seat shall not be counted more than once or on a concurrent (logged-in) basis. One Seat license shall authorize you to use any of the CA Software for which you are separately licensed in the RDz UT environment. The term of this license (the “Term”) is the lesser of: (i) one (1) year; (ii) the term end date for the applicable separately licensed CA Software; or (iii) the term end date for your use of the IBM RDz UT environment. Any termination under clauses (ii) or (iii) immediately above shall not result in refund of any license fees paid by you under your license for these rights. Subject to the limitations set forth in clauses (i) (ii) and (iii) immediately above, any renewal or extension of the license term for the separately licensed CA Software or the IBM RDz UT environment, as the case may be, shall continue the Term of this license right for the period identified above. If you have multiple CA Software products with different term end dates, the license rights granted under this license will terminate as to each specific CA Software product in the lesser of one (1) year or when the applicable term license for such CA Software ends. Termination these license rights shall not terminate your license to any CA Software product.

CA does not provide support for the CA Software in the RDz UT environment. Any issues with the CA Software in the RDz UT environment must be reproduced by you in the z/OS environment and reported as such through CA Technologies normal support process for the CA Software.

CA Technologies mainframe advantage

Mainframes are the backbone of IT. With CA Technologies you can maintain high mainframe productivity and increase your IT team capabilities. Mainframe products from CA Technologies can help you maximize value, simplify management and increase agility through continuous stream of practical and proven innovative products. We also offer a world class support and service infrastructure.

CA Mainframe Suite for IBM RDz UT will give you the capability to utilize select mainframe software from CA Technologies you already own, extending its use to IBM's RDz UT environment and ultimately helping to provide a more cost-effective, low-risk, alternative means for building and testing z/OS applications.

Next steps

Contact your local CA Technologies representative about CA Mainframe Suite for IBM RDz UT and start to realize the benefits today.

CA Technologies is an IT management software and solutions company with expertise across all IT environments—from mainframe and distributed, to virtual and cloud. CA Technologies manages and secures IT environments and enables customers to deliver more flexible IT services. CA Technologies innovative products and services provide the insight and control essential for IT organizations to power business agility. The majority of the Global Fortune 500 rely on CA Technologies to manage their evolving IT ecosystems. For additional information, visit CA Technologies at ca.com.
