

## CA Accelerator Program Guide

### At CA Technologies, Startups Are Born Every Day

At CA, new product innovation is central to our commitment to deliver value to our customers. [CA Accelerator](#) is an internal incubation program designed to do just that—produce innovative products that solve our customer’s most pressing needs. Guided by the Lean Startup framework, the teams within CA Accelerator operate as startups and their mission is to take their product ideas from concept to reality.

These startups will be on full display at CA World '16, giving you the chance to meet CA’s intrapreneurs and see the next wave of innovations they’re working on.

#### Accelerator-related events at CA World '16 provide you with an opportunity to:

- View CA Accelerator product demos firsthand.
- Meet Lean Startup expert Ash Maurya, author of “Running Lean” and “Scaling Lean.”
- Discuss key problems impacting your business that you’d like to see our intrapreneurs tackle.

Don’t miss out on this great opportunity to learn and engage with a community of innovators, intrapreneurs and industry leaders.

## CA Accelerator Programming

### Demos

| Title  | Content Area        | Session Type |
|--|---------------------|--------------|
| Advanced Analytics (Project Jarvis, Forty2.io)           | CA Accelerator Zone | Demo         |
| Augmented Intelligence (CodePilot.ai, WhoZoo.io)         | CA Accelerator Zone | Discussion   |
| Docker and Containers (Yipee.io, Qubeship.io)            | CA Accelerator Zone | Demo         |
| Modern Development (Waffle.io, GitHub, Circle CI)        | CA Accelerator Zone | Demo         |
| Work and Meet Smarter (Instant Agenda, Project CatchFly) | CA Accelerator Zone | Demo         |

### Tech Talks

| Code    | Title  | Content Area        | Session Type |
|---------|--|---------------------|--------------|
| IET03T  | Analytics at CA: What's Cooking—Project Jarvis                                 | CA Accelerator Zone | Tech Talk    |
