

# The Forrester Total Economic Impact™ of CA Release Automation

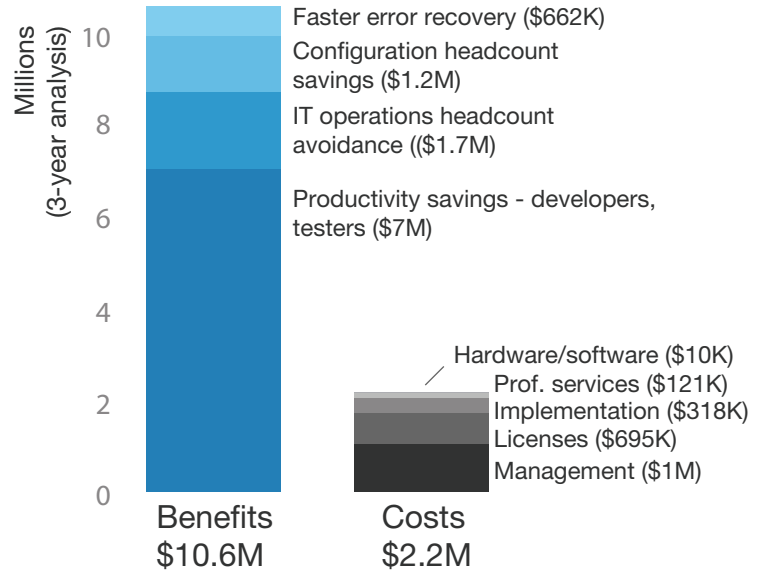

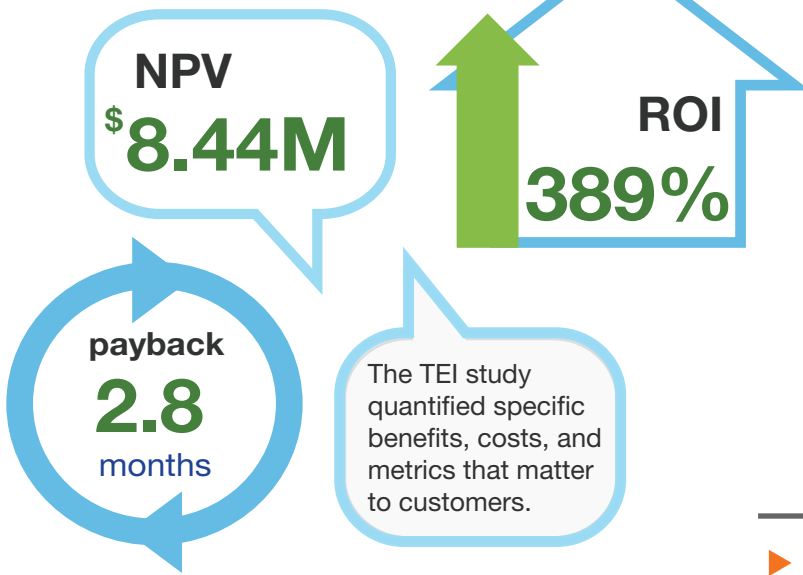

FORRESTER®

Improving Release Quality and Enabling Faster Deployment in Complex Enterprise Environments

## ► Summary of Benefits

Through customer interviews and data aggregation, Forrester concluded that CA Release Automation has the following financial impact:

## ► Voice of the Customer

► Agile and continuous delivery can be nothing but a journey. You are never done; you are constantly moving the needle. There is always something you can do. Through it all, the CA Release Automation tool is relatively bulletproof.

-Fortune 100 financial services firm

► I know we have a complicated framework - we have different components with different functionalities on different applications. But dealing with complicated frameworks is where CA Release Automation is really strong.

-Major telecommunications provider

► With automation, the knowledge of that person is in the system. The process itself is improved. With these simple processes, there is no dependency on heroes.

-Multinational banking and financial institution
