

CA Project & Portfolio Manager SCIM Connector for CA Identity Manager

What It Does

CA Project & Portfolio Manager SCIM Connector for CA Identity Manager provides a single point for user administration in CA Project & Portfolio Manager. The connector allows the administration of the CA Project & Portfolio Manager user with respect to:

1. Create, modify, enable, and disable of CA Project & Portfolio Manager users.
2. CA Project & Portfolio Manager user's group membership association. This gives the user proper permissions in CA Project & Portfolio Manager.
3. Assign CA Project & Portfolio Manager user as manager of CA Project & Portfolio Manager Projects
4. Assign CA Project & Portfolio Manager user an association with CA Project & Portfolio Manager Projects

Benefits That Deliver Value

CA Project & Portfolio Manager SCIM Connector for CA Identity Manager provides:

- Centralized CA Project & Portfolio Manager user provisioning
- Automated CA Project & Portfolio Manager user access management
- Automated CA Project & Portfolio Manager resource allocation
- Secure, Reliable, and Scalable
- Simplicity of support

How It Works

The CA Project & Portfolio Manager SCIM Connector is a CA Identity Manager Java Connector Server DYN connector. It is built on the capability of CA Identity Manager's SCIM connector and relies on the CA API Gateway with policy assertions to manage CA Project & Portfolio Manager via its XML Open Gateway.
