

Migration Services

CA Panvalet, CA Librarian to CA Endeavor Software Change Manager

At a Glance

CA Panvalet and CA Librarian provide powerful library management systems and storage mediums for source code, JCL objects and data for hundreds of mainframe platforms. The products can reduce the complexity and overhead associated with maintaining code by providing a single repository for visibility, security and control.

CA Endeavor Software Change Manager (CA Endeavor SCM) is the most widely used software change management product for the mainframe environment. It provides important added functionality and features including the ability to create and retain repeatable application processes and the ability to distribute application deployments across locations and data centers.

With the scheduled functional stabilization for CA Panvalet and CA Librarian, CA Services provides an efficient and low-risk means to migrate either product to CA Endeavor SCM. From planning, data migration and integration, to testing and knowledge transfer, CA Services can make the transition quickly with confidence and value.

Key Outcomes

- **Efficiently transition** to the current release of the industry-leading CA Endeavor SCM to eliminate stabilization issues (no further enhancements, just fixes and certifications).
- **Reduced maintenance costs** by transitioning to currently supported product.
- **Maintain the stability and security** of your code base while accelerating software development time across the enterprise.

Key Services Features

- **Highly experienced** resources to quickly and easily migrate to the new solution for lower risk
- **Standardized assets and process to aid in the migration** that provide a factory-style process to ensure a smooth and efficient process
- **Knowledge transfer** to help bring your resources up to speed on the administration and management of your new CA Endeavor SCM environment
- **Education** to prepare the next generation of mainframers in your organization that can include administration, end user operation, application development and more
- **Optional M3A Services** to remotely administer and manage CA Endeavor SCM with highly skilled resources

Business Challenges

CA Panvalet and CA Librarian have been market-leading products in their category for decades, and can still provide customers a valuable tool for revision and source code management. Like all software products, they are coming to the end of their product lifecycle. Reaching such milestones prompt customers to take a long look at preserving the value these tools deliver, and in many cases consider technologically superior and more feature rich alternatives. Items to consider can include:

Am I missing out on technology innovations that newer product offerings can provide?

Can our existing processes be automated to save valuable time, resources and money in our software development lifecycle?

Should I subject my organization to the risk usually associated with functional stabilization lifecycle events?

Sun setting milestones of software tools can provide an opportunity to transition to functionally more robust technology available with CA Endeavor SCM.

Offering Overview

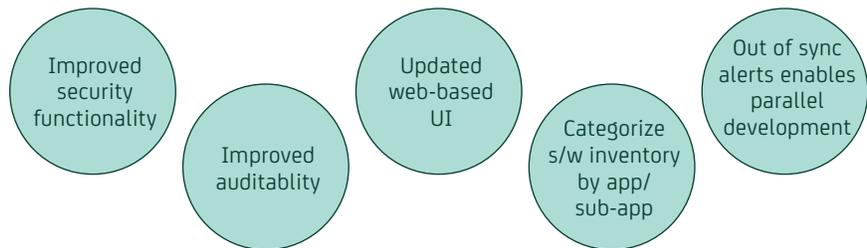

Speed, accuracy and efficiency are the hallmark of migration services for CA Panvalet or CA Librarian to CA Endeavor SCM. Our team of dedicated professionals– all with decades of experience– can deliver a seamless migration solution with proven tools, methodology and processes. CA Services migration methodology includes:

Assessment of your environment	Implementation of a pilot application
Project planning	Audit of the pilot to ensure data integrity
Architecture and configuration	Knowledge transfer
