

### Overview

Adjustment timesheets provide the ability to correct previously processed time. An adjustment timesheet is a replacement for the most recent fully processed timesheet.

Adjustment timesheets require you to provide an adjustment reason for each row that has changed content—even where the change is not apparent because time was deleted.

To ensure the adjusted timesheet passes validation, you MUST:

- Make a selection in the Adjustment Reason dropdown
- Provide a Time Entry (line item) Note explanation

Adjusted timesheets are routed for approvals based on the time entry lines that were updated.

Adjustment timesheets have a feature that enables you to compare the changes made against the prior timesheet. When adjusting a timesheet, click [\[Delta View\]](#).

**Adjustment Reason**

▼

- Change Charge Code (Bill .vs. nonBill)
- Change PO
- Change Role
- Hours Adjusted - decreased
- Hours Adjusted - Increased
- Hours Adjusted - redistributed
- Other – Reference Note
- OverHead Adjustment
- Time Added – Corrected Project
- Time Added – Corrected Task
- Time Added – Corrected Week
- Time Reversed – Incorrect Project
- Time Reversed – Incorrect Task
- Time Reversed – Incorrect Week

To retrieve a timesheet that must be adjusted, you can—

- Click the appropriate time period in the Time Period dropdown present on a Timesheet page
- Click the Timesheets link accessible under Home—this enables you to view a list of timesheets and filter to retrieve a timesheet

In this example, the filter applied stipulated a custom date range and all possible timesheet statuses. Notice that the list returned includes a Posted timesheet (the original) and an Adjustment timesheet for the same time period. When the Adjustment timesheet is approved, the status is Adjusted.

Adjustment timesheets are subject to the same validation rules, see *Timesheet Validation* accessible at:

<http://www.ca.com/us/collateral/service-partners/na/ca-service-partner-program-tools.aspx>

Adjustment timesheets have additional validations—

- Missing a value in the Adjustment Reason dropdown
- Missing a Time Entry Note
- No change was made to the timesheet
- A line of previously processed time was deleted
