

# CA Advanced Authentication 9.0: Differences 200

## Course Overview

Your employees, partners, and customers all need easy access to your online applications. To protect your sensitive data from improper access, you need to improve security for online transactions, enable mobile devices securely, meet regulatory compliance directives, and provide a superior user experience.

---

### PRODUCT RELEASE

CA Advanced Authentication 9.0

To meet these requirements, CA Advanced Authentication reduces exposure to data breaches, inappropriate access, and identity theft; lowers the cost of operations by reducing online fraud; helps meet government regulations and industry guidelines for stronger authentication; and provides a frictionless user experience through transparent risk analysis and software-based 2FA credential.

This course provides you with an overview of the new features and demonstrations of master-master replication, installation, and upgrade. You will also be shown how to use CA Advanced Authentication 9.0 REST APIs and the enhanced CA Adapter.

---

### COURSE TYPE, LENGTH & CODE

- Web Based Training (WBT)
- Two (2) Hours
- 04AAA20220

---

### WHO SHOULD ATTEND

- General knowledge of CA Advanced Authentication functionality

---

## What You Will Learn

- Identify new features and enhancements in CA Advanced Authentication 9.0:
  - Enhanced operations tools
  - Improved availability
  - Platform modernization
  - Enhanced CA Adapter, formerly called Authentication Flow Manager

---

## For Managers

CA Advanced Authentication is a flexible and scalable solution that incorporates both risk-based authentication methods such as device identification, geo-location, and user behavior profiling, and a wide variety of multi-factor, strong authentication credentials.

To maintain your security infrastructure at the highest levels, your security professionals must take advantage of the latest technologies available. Understanding and implementing the latest features enables and protects your business while providing the greatest ROI and customer satisfaction.

---
