

# CA Identity Suite 14.x: CA Identity Manager - Manage Endpoints 200

## Course Overview

This course aims to provide you with a functional understanding of endpoint management in CA Identity Suite. You will discover how to acquire endpoints, which will enable you to manage accounts on endpoint systems. And by using the Explore and Correlate features, you can simplify endpoint management by discovering and synchronizing changes in managed systems.

---

### PRODUCT RELEASE

CA Identity Suite 14.0

---
