

# CA Identity Suite 14.x: CA Identity Manager – Configure Workflow Processes 200

## Course Overview

This course aims to provide you with a functional understanding of workflow processes in CA Identity Manager. You will discover how to control CA Identity Manager tasks with approval workflows and use the supplied workflow process templates to place most tasks and events under workflow control. You can use these templates to configure and manage workflow entirely from within the User Console without requiring any customization within WorkPoint Designer.
