

# CA Identity Suite 14.x: CA Identity Governance – Run Certification Campaigns 200

## Course Overview

With today's highly distributed and evolving organizational structures, organizations require business-wide processes to review and approve entitlements, and maintain accurate roles. Unfortunately, the compliance framework incorporating review and approval of access rights and policies is often manual, labor-intensive, and inefficient, making adherence to segregation of duties and other compliance policies arduous. Organizations need a solution like CA Identity Governance that automates identity and access governance processes and provides continuous identity controls.

In this course, you will discover how to create and run certification campaigns, which will enable you to verify that privileges comply with business and regulatory requirements.

---

### PRODUCT RELEASES

CA Identity Suite 14.0

---

### COURSE TYPE, LENGTH & CODE

- Dynamic Labs  
Three (3) Hours
- Course Code: 04IMG20529

---
