

CA Privileged Access Manager: Integrate CA Threat Analytics 300

SUPPORTED PRODUCT RELEASE(S)

CA Privileged Access Manager (PAM)
3.2 and greater

COURSE TYPE, LENGTH, & CODE

- Web-Based Training (WBT)
- Thirty (0:30) minutes
- Course Code: 04PIM30460

Course Overview

Enterprise organizations need a Next Generation Privileged Access Management Platform – enabling them to protect and manage systems and privileged users across hybrid environments, all from a single point of control.

This course topic describes the tasks necessary to integrate CA Threat Analytics with CA Privileged Access Manager.

This Course Will Show You How To:

- Apply licensing in CA Privileged Access Manager
- Install CA Threat Analytics server into a virtual environment
- Configure CA Threat Analytics
- Enable mitigation actions
- Set up SAML punch-through authentication
