- Web-Based Training (WBT): 30 Minutes
- 04SSO20180

PREREQUISITES

- CA Single Sign-On 12.7.X: Foundations 200 (04SSO2017S / 04SSO20171) or equivalent knowledge
- General: Windows server knowledge, basic user directory understanding (Active Directory / LDAP), web server operation (IIS)

WHO SHOULD ATTEND

- CA SSO Administrator
- IT Architect
- Partner (services delivery and presales)
- Technical support analyst
- Security specialists

Course Overview

CA Single Sign-On provides a centralized security management foundation that enables secure use of the Web to deliver applications and data to customers, partners, and employees. This course builds upon the skills in the Foundations course. You will be introduced to the Federation capabilities of CA SSO and the preconfigured OAuth partnerships available to implement social sign-on. You will enable Voonair customers to “Log on with Facebook” by creating a working OAuth partnership.

Your understanding of the concepts covered in the Foundations course is essential to success in this course.

What You Will Learn

- Federation capabilities of CA SSO
- Preconfigured authorization server partnerships available for social sign-on
- Create an OAuth Federation Partnership to enable logon with Facebook

For Managers

Correct and efficient operation of CA SSO lets you manage and deploy secure web applications to increase new business opportunities, manage costs, improve security to mitigate risk, and ease compliance.

Your team will be taught how to use the federation capabilities of CA SSO, using the Access Gateway as a Federation Gateway and enable Social Sign-on.
