

# CA Single Sign-On: Advanced Topics 300: Implement Social Sign-On with Partnership Federation

## Course Overview

CA Single Sign-On (SSO) provides a centralized security management foundation that enables secure use of the Web to deliver applications and data to customers, partners, and employees. This series of advanced topics are frequently implemented to extend the SSO environment, further enhance security, and improve performance.

This course topic introduces you to the Federation capabilities of CA SSO and the preconfigured OAuth partnerships available to implement social sign-on.

---

### PRODUCT RELEASE

CA SSO 12.7 and greater

---

### COURSE TYPE, LENGTH & CODE

- Web-Based Training (WBT):  
30 minutes
