

CA Application Performance Management 10.x Team Center Overview 200 Dynamic Lab

Course Overview

To be successful, IT services and infrastructures need to be optimized, so that customer satisfaction does not suffer. By employing CA Application Performance Management (CA APM), you can help ensure quality of service and quality of experience for your critical business applications to protect revenue opportunities, end-user productivity, and customer satisfaction.

This course provides students with primary concepts on the Team Center interface for CA APM. Course instruction is web-based and includes self-directed learning and hands-on exercises that you can perform in a live CA APM virtual environment.
