

OnDemand CA Application Performance Management 10.x Use Team Center Map and Dashboard Views 200

SUPPORTED PRODUCT RELEASE(S)

CA Application Performance Management 10.7

COURSE TYPE, LENGTH, & CODE

- Web-Based Training (WBT)
- 1 hour
- 20APF20620

Course Overview

To be successful, IT services and infrastructures need to be optimized, so that customer satisfaction does not suffer. By employing CA Application Performance Management (CA APM), you can help ensure the quality of service and quality of experience for your critical business applications to protect revenue opportunities, end-user productivity, and customer satisfaction.

In CA APM Team Center, you can use the dashboard to view the overall health of the environment while the map lets you view the relationship between individual components within the environment. In this course, you will learn how you can use the Team Center Map and Dashboard views to help monitor application performance problems.

This Course Will Show You How To:

- Describe Team Center Map and Dashboard Views
- Navigate the Dashboard view
- Navigate the Map view
- Manage Dashboard and Map views
