

# OnDemand CA APM 10.x Deploy APM Infrastructure Agents 200

## SUPPORTED PRODUCT RELEASE(S)

CA Application Performance Management 10.7

## COURSE TYPE, LENGTH & CODE

- Web-Based Training (WBT)
- .75 hours
- 20APF20990

## PREREQUISITES

- General familiarity with Java application servers

## WHO SHOULD ATTEND

- IT Services Manager
- Any IT staff who needs to administer CA APM

## Course Overview

CA Application Performance Management (CA APM) enables organizations to measure the business value of each user's experience, proactively identify problems based on impact, and help resolve problems across today's highly complex application environments before they affect users.

You need to understand the administrative functions of CA APM to successfully administer the product and gain more control of your business services.

This course provides students with fundamental concepts on deploying the CA APM Infrastructure Agent (Infrastructure Agent). Course instruction is web-based and self-paced and includes hands-on exercises in a simulated APM environment designed to give students the experience of using the product in realistic scenarios.

## This Course Will Show You How To:

- Describe the Infrastructure Agent
- Build and deploy an Infrastructure Agent package
- View Infrastructure Agent metrics
