

CA Digital Experience Insights: Virtual Tour

Course Overview

CA Digital Experience Insights (DXI) is a SaaS-based digital experience monitoring and analytics solution, offering an integrated set of app experience analytics, application performance management and infrastructure management capabilities. Built on top of a powerful analytics engine that leverages open technologies such as Elasticsearch, Kibana and Hadoop, CA Digital Experience Insights uniquely provides comprehensive monitoring and analytics for cloud natives.

In this course, we'll walk you through a tour of the different capabilities of the CA Digital Experience Insights solution. This tour will show you how the CA Digital Experience Insights solution will help you understand the digital experience of your web and mobile apps for your customers and you will learn how to identify the key aspects that may be affecting the performance and customer experience of your applications.

COURSE TYPE, LENGTH & CODE

- Web-Based Training (WBT)
- 55 Minutes
- Course Code: 20DXI10010

PREREQUISITES

- Basic understanding of web and mobile applications

WHO SHOULD ATTEND

- Application Administrators
- Application Developers

RECOMMENDED NEXT STEPS

- Try CA Digital Experience Insights at www.ca.com/tryDXI
- [CA DXI Learning Path](#)
- [CA APM Learning Path](#)
- [CA AXA Learning Path](#)
- [CA UIM Learning Path](#)

What You Will Learn

This video tour will show you how to:

- Spot slow performing mobile and web apps
- Pinpoint poor performing mobile app screens
- Recognize poor mobile app design
- Identify code related issues
- Become a data scientist
- See the combined power of App Experience Analytics with Application Performance Management and Infrastructure Management.
