

CA PPM 15.4: Product Overview 100

Course Overview

As you face today's competitive reality, it is getting more difficult to meet rapidly changing business and market demands. Tough economic times force us to make tough choices and ask, "How do we make the right decisions on where to invest our resources and remain competitive?"

PRODUCT RELEASE

CA PPM 15.4

COURSE TYPE, LENGTH & CODE

- Web-based Training (WBT)
- Thirty (30) Minutes
- Course Code: 33CLR10640

CA Project & Portfolio Management (CA PPM) is the decision engine that can help you manage every aspect of your portfolio, whether you are managing ideas and requirements for new products and services, rationalizing your applications or managing across multiple development methodologies, so you can compete in an increasingly complex world.

This course is designed to describe to PMO leaders how CA PPM can be used to empower their organizations to seamlessly manage services, projects, products, people and financials.
