

# CA PPM 15.3: Integration Using XOG 300

## Course Overview

Completing projects on time, on budget, and within scope is critical to the business and requires the very best in project and portfolio management solutions. CA Project and Portfolio Manager 15.3 (CA PPM) helps you drive strategic initiatives across your entire enterprise by managing your dynamic business requirements, complex projects, global resources, and shrinking budgets.

The course is targeted to users who want a hands-on training in integrating XML Open Gateway (XOG) with CA PPM. Topics include defining objects, invoking process actions, creating queries, and managing web services in CA PPM. This training is based on CA PPM classic interface.

This class consists of 6.5 hours of SELF-DIRECTED learning including lab activities.
