

CA PPM 15.3: Integration Using WSDL 300

Course Overview

Completing projects on time, on budget, and within scope is critical to the business and requires the very best in project and portfolio management solutions. CA Project and Portfolio Manager 15.3 (CA PPM) helps you drive strategic initiatives across your entire enterprise by managing your dynamic business requirements, complex projects, global resources, and shrinking budgets.

The course is targeted to users who want a hands-on training in integrating Web Service Definition Language (WSDL) with CA PPM. Topics include defining objects, invoking process actions, creating queries, and managing web services in CA PPM. This training is based on CA PPM classic interface.

This class consists of 6.5 hours of SELF-DIRECTED learning including lab activities.

PRODUCT RELEASE

CA PPM 15.3

There are no changes in CA PPM 15.3 that affect this course.

Please note, therefore, that the content included here is from the CA PPM 15.1 version which is bundled with the CA PPM 15.2 Cumulative Differences course.

The purpose of including the Cumulative Differences course is for reference of minor updates in the CA PPM 15.2 release.

COURSE TYPE, LENGTH & CODE

- Dynamic Labs
- Six and a Half (6.5) Hours
- Course Code: 33CLR3106S

PREREQUISITES

- Working knowledge of XML
- Good working knowledge of the core components of CA PPM

WHO SHOULD ATTEND

- Application Administrator
- System Administrator

What You Will Learn

- Work with WSDL objects, so you can work with CA PPM objects to perform read/write actions.
- Define WSDL queries in CA PPM to create Niku Structured Query Language (NSQL) queries for querying CA PPM data from external systems.
- Manage web services to integrate external applications with CA PPM.

For Managers

To maximize the benefits of the application for the business, your staff need to be able to administer the powerful business management functionality available. This course is targeted to users who need more in-depth training in integrating WSDL with CA PPM.

These classes can be credited toward Project Management Professional Development Units (PDUs) from the Project Management Institute® (PMI®).
