Course Code: 33CLR3109S
Five (5) Hours
- CA PPM 15.3: Building Portlets Using Studio 300
Course Code: 33CLR3110S
Thirteen (13) Hours

Course Overview

Completing projects on time, on budget, and within scope is critical to the business and requires the very best in project and portfolio management solutions. CA Project & Portfolio Management 15.3 (CA PPM) helps you drive strategic initiatives across your entire enterprise by managing your dynamic business requirements, complex projects, global resources, and shrinking budgets.

This course is designed for the administrator who will enhance CA PPM by customizing the interface and migrating content to meet the exact requirements of the organization. Topics include configuring personal dashboarding, migrating UI themes, and administering content management. The concepts and labs in this training will help you to accurately and efficiently configure the system for a more effective implementation. There are no changes to this course with this release, so it is using 15.2 image and content. This training is based on CA PPM classic interface.

This class consists of 5 hours of SELF-DIRECTED learning including lab activities.

What You Will Learn

- Configure personal dashboarding to enable users to view system information and collaborate with other users without the need of Studio administrators
- Migrate the UI theme of your application to suit your business requirements
- Provide an easy mechanism for importing and exporting selective content from one system to another

For Managers

Correctly configuring the application to meet organizational needs helps shorten deployment time, reduce risk, and lower costs. This class is designed for those IT staff resources that will configure the application. Students will be shown how to use Studio and how to customize the interface and migrate content. The skills to accurately and efficiently configure the system will help ensure smoother and more effective implementations.

These classes can be credited toward Project Management Professional Development Units (PDUs) from the Project Management Institute® (PMI).

WHO SHOULD ATTEND

- Project Manager
- IT Manager
- Project Management Office (PMO)
- CA PPM Administrator

RECOMMENDED
