

# CA Continuous Delivery Director 6.x: Installation 200

## Course Overview

This CA Continuous Delivery Director installation training course is designed to provide students with the knowledge required to install the solution in various configurations. In addition to installation information, the course covers licensing requirements and configuration and teaches students to uninstall the solution.

Note: CA Continuous Delivery Director was formerly known as CA Release Automation Continuous Delivery Edition and CA Release Automation Continuous Delivery Director. You may see these names inside this course. The content in this course is relevant for all 6.x product versions.
