

# CA API Developer Portal Enhanced Experience 4.0: Features 200

---

## PRODUCT RELEASE

CA API Developer Portal Enhanced Experience 4.0

---

## COURSE TYPE, LENGTH & CODE

- Web-based Training (WBT)
- One (1) Hour
- 40AMO20030

---

## PREREQUISITES

- Working knowledge of CA API Developer Portal r3.x

## Course Overview

APIs are becoming ubiquitous as enterprises increasingly need to open up to mobile devices, cloud-based services, partners and third-party developers. CA API Developer Portal Enhanced Experience provides a single solution that can not only accommodate internal API initiatives to empower in-house developers, but can also act as the cornerstone of external API initiatives with partner access, cloud integration, mobile enablement and so on.

By eliminating the need to deploy multiple solutions from multiple vendors, CA API Developer Portal Enhanced Experience can greatly reduce technology acquisition costs, infrastructure requirements and maintenance overhead. In this course, you will quickly become familiar with the features available with CA API Developer Portal Enhanced Experience 4.0.

---

## What You Will Learn

- Understand the portal system component architecture and the pre-requisites which will help you perform a successful installation
- Understand the process to install CA API Developer Portal Enhanced Experience in a vSphere environment
- Understand how to configure the portal after installation
- Understand the process to successfully upgrade and patch CA API Developer Portal Enhanced Experience
- Understand how the bring-your-own (BYO) content management system (CMS) solution can be integrated with the portal

**WHO SHOULD ATTEND**

- Application Developer
- API Portal Administrator
- Implementation Consultant
- Service Support Manager
- Technical Support Manager

**For Managers**

With the veritable explosion of mobile technology, the rise of the cloud, and the emergence of the Internet of Things, the enterprise today is being forced to expose data once considered sacred to a shareable asset outside the organization. The CA API Management suite provides enterprises with a comprehensive set of solutions that externalize the data and services exposed by APIs in a secure, reliable, and manageable way. The “storefront” of the suite is the CA API Developer Portal Enhanced Experience, which helps to engage and onboard internal and third-party developers. In this course, your team will be able to quickly become familiar with the new features available in CA API Developer Portal Enhanced Experience 4.0.

**Course Agenda**
