

# CA Mobile API Gateway 3.2: New Features 200

---

## PRODUCT RELEASE

CA Mobile API Gateway 3.2

---

## COURSE TYPE, LENGTH & CODE

- Web-based Training (WBT)
- One (1) Hour
- 40API20340

---

## PREREQUISITES

- Working knowledge of CA API Gateway 9.1 and CA Mobile API Gateway 3.1

---

## WHO SHOULD ATTEND

- Implementation Consultant
- Security Administrator
- Service Support Manager
- System Administrator
- Technical Support Manager

## Course Overview

With the veritable explosion of mobile technology, the rise of the cloud, and the emergence of the Internet of Things, the enterprise today is being forced to expose data once considered sacred to a shareable asset outside the organization. The CA API Management suite provides enterprises with a comprehensive set of solutions that externalize the data and services exposed by APIs in a secure, reliable, and manageable way. In the suite, CA Mobile API Gateway provides centralized management of data exposed through APIs to mobile developers and apps.

CA Mobile API Gateway is a lightweight secure mobile backend for enterprises that integrates systems and permits control over which users, devices, and applications can access your APIs. In this course, you will quickly become familiar with the new features of this CA API Management product.

---

## What You Will Learn

- Understand which products are compatible with the CA Mobile API Gateway 3.2 so you can be successful when you install it
- Describe the changes to the OTP SDK, which will enable you to more easily create apps that employ the OTP process to provide an extra layer of security to access protected resources
- Identify the iOS and Android SDK interface alignment, which will enable you to experience a unified developer experience across different platforms
- Describe support for Apache Cordova, which will enable you to easily create apps that are supported by this open-source mobile development framework
- Gain an insight into the enhancements to the developer documentation, which will enable you to more easily access the information you want, when you need it

---

## For Managers

The CA API Management suite provides enterprises with a comprehensive set of solutions that externalize the data and services exposed by APIs in a secure, reliable, and manageable way. In this course, your team will be able to quickly become familiar with the new features of CA Mobile API Gateway 3.2.

---

## Course Agenda

Module 1: Describe New Features and Enhancements
